

FIX-N-FAX #29

CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION

No. 29

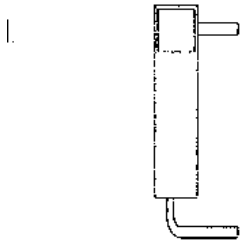

Equipment Standard

Mandatory Compliance

Date: February 1995

Side View Mirrors – Stakesides, Helitacks, CCvs, Fire Engines

Sample #1

6"X16" Mirror with
4" Integral Convex
(Min. Std.)

Sample #2

6"X16" Mirror with
Integral 4" Convex
(Min. Std.)

Sample #3

6"X16" Mirror with
Remote 4" Convex
(Min. Std.)

This Fix-N-Fax is intended to give field personnel information in regards to three (3) mirror glass arrangements, one of which can choose to provide the best visibility in a particular situation. Each vehicle is supplied with two (2) adjustable, swing-away, reset-type rearview mirror assemblies appropriate to the cab structure, rectangular mirror heads, one piece frame, not less than 6" by 16", with either integral 4" convex mirror or a 4" remote convex.

Note: Mirror adjustment is very important regardless of the arrangement.

All questions should be directed to your local Fleet Manager.
